“The Midwest was hit with significant weather losses this quarter, including four severe weather events that each resulted in over \$1 billion in overall damages,” said Michael J. Alexander, President and CEO. “We were significantly impacted by \$49 million in pre-tax incurred catastrophe losses, continued high inflation that led to double-digit year-over-year increases in our property loss costs, rising interest rates and challenging equity markets. However, as a result of the pricing and underwriting changes that we have already implemented, our underlying business continues to perform as expected. We are pleased with the strong premium growth across our Crop, Commercial, and Non-Standard Auto segments, which is being driven by increasing rate and new business growth. We continue to assess the performance in all of our segments and are committed to taking the necessary rate and underwriting actions to deliver profitable results and superior shareholder value over time.”
