Management Commentary

“In the second quarter, we continued efforts to take significant rate increases and underwriting actions to improve our profitability,” said Michael J. Alexander, President and Chief Executive Officer. “While we benefited from experiencing no catastrophe losses, we continue to be challenged by elevated loss costs driven by the inflationary environment. Although our rate and underwriting actions slowed growth this quarter, our focus is on profitability and we believe these and other future measures will drive improved underwriting results over time. In regards to investments, higher reinvestment rates, along with more favorable equity market conditions have produced steadily rising returns in our portfolio. Overall, we remain confident in the outlook for our business and our ability to achieve appropriate returns for our shareholders into the future.”
